PROFESSIONAL SUMMARY

Software Engineer with **3 years of professional experience** building enterprise **HRM, ERP, and SaaS applications** using C#, ASP.NET Core, Web API, Entity Framework Core, PostgreSQL, and SQL Server. Experienced in backend development, REST API design, database optimization, multi-tenant applications, authentication and authorization, and workflow-driven enterprise systems.

TECHNICAL SKILLS

Backend & .NET: C#, .NET, ASP.NET Core, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ, REST APIs, Swagger, OpenAPI

Architecture & Database: Clean Architecture, SOLID Principles, Repository Pattern, Unit of Work, Dependency Injection, Design Patterns, Multi-Tenant Architecture, PostgreSQL, SQL Server, MySQL, Redis, Database Design, SQL, Query Optimization, Database Indexing

Security & Frontend: JWT Authentication, Role-Based Access Control (RBAC), Authentication, Authorization, JavaScript, HTML5, CSS3, Bootstrap 5, Tailwind CSS, jQuery

DevOps & Tools: Git, GitHub, Docker, Microsoft Azure, IIS, Postman, Visual Studio, Visual Studio Code

CORE COMPETENCIES

Backend Development	Database Design & Optimization	Enterprise Application Development	Multi-Tenant SaaS Systems
Performance Optimization	Workflow & Approval Systems	Software Architecture	System Design

PROFESSIONAL EXPERIENCE

Genuine Technology & Research Ltd. (GTR)

Programmer / Software Engineer

Chattogram, Bangladesh
March 2024 – Present

- Developed and maintained enterprise HRM and ERP features supporting **200+ business users**.
- Built backend functionality for **Leave, Attendance, Onboarding, Performance, and approval workflows** using ASP.NET Core and EF Core.
- Designed and optimized **PostgreSQL queries, indexes, and data-access logic** to improve performance and responsiveness.
- Participated in **requirement analysis, feature development, testing, deployment, debugging, and production support**.

A K Khan UCEP TVET Institute

Trainer

Chattogram, Bangladesh
December 2023 – February 2024

- Delivered hands-on training in **HTML, CSS, JavaScript, and Bootstrap**; mentored students on debugging and problem-solving.

SELECTED ACHIEVEMENTS

- Contributed to enterprise **HRM and ERP solutions** supporting **200+ business users** across workforce operations.
- Developed backend functionality for **multi-tenant SaaS applications** with authentication, RBAC, and business workflow support.
- Improved **PostgreSQL data access** through query optimization, indexing, and efficient data-access practices.
- Implemented **multi-level approval workflows** across Leave, Attendance, Performance, and other HR operations.
- Delivered backend features across **HRM, ERP, Accounting, and Performance Management** systems.

MAJOR PROJECTS

Halda – Enterprise HRM SaaS Platform

ASP.NET Core, EF Core, PostgreSQL, JWT, RBAC

Developed backend features for a multi-tenant HRM SaaS platform, including REST APIs, approval workflows, data models, and PostgreSQL data-access optimization.

Employee Management	Attendance Management	Leave Management	Recruitment Management
Performance Management	Onboarding Management	Grievance Management	Approval Management

Enterprise ERP System

ASP.NET Core, EF Core, PostgreSQL, Clean Architecture

Contributed to core modules using Clean Architecture. Built workflow automation, multi-level approvals, and reporting features.

Inventory Management	Supply Chain Management	HR Management	Finance Management
----------------------	-------------------------	---------------	--------------------

Atrai – Accounting & Financial Management System

ASP.NET Core, EF Core, PostgreSQL

Developed full-featured accounting modules for invoicing, expenses, ledger, and financial reporting.

Invoicing Management	Expense Management	General Ledger Management	Financial Report Management
----------------------	--------------------	---------------------------	-----------------------------

OKR & Task Management System

ASP.NET Core MVC, EF Core, PostgreSQL

Built goal management, KPI tracking, task management, and performance-monitoring dashboards.

Goal Management	KPI Tracking Management	Task Management	Dashboard Management
-----------------	-------------------------	-----------------	----------------------

EDUCATION

Diploma in Computer Science & Engineering

CGPA: **3.82/4.00** | 2020 – 2024

A K Khan UCEP Polytechnic Institute, Chattogram, Bangladesh

Bachelor of Science in Computer Science & Engineering (BSc CSE)

Expected Graduation: 2030 | 2026 – Present

Port City International University, Chattogram, Bangladesh

CERTIFICATIONS

- .NET Core MVC Professional Certification – Udemy
- Web Development Professional Certification
- The Structured Query Language (SQL) – Coursera
- HTML, CSS, and JavaScript for Web Developers – Coursera
